WHAT'S NEW?

evoluzione a colori

2019

Perenz è lieta di presentare il nuovo catalogo che abbiamo battezzato **What's new? Evoluzione a colori**. Un compendio che anticipa le proposte del nuovo catalogo generale e che evidenzia due direttrici di ricerca: il colore, in grado di cambiare segno ai prodotti già esistenti e largamente apprezzati aprendo a nuove dimensioni emozionali e l'implementazione delle famiglie per rispondere alle esigenze sempre maggiori di coordinamento degli arredi.

Le famiglie a firma Perenz quindi crescono ulteriormente e trovano una personalità sempre più nitida attraverso la ricercatezza cromatica che valorizza ed esalta la materia: l'eleganza del nero opaco, la raffinatezza dell'oro rosa e spazzolato, il calore del cannella incontrano la lucentezza dell'alluminio e del metallo; e anche il vetro - nelle nuove varianti ambra e specchiato - ritorna in chiave contemporanea.

Riaffiorano anche le forme pure, come il cerchio, il quadrato, il cubo, la sfera; la linea trova nuovi dinamismi per creare ambienti e atmosfere completamente inediti.

La gamma - attentamente selezionata insieme alla forza vendita - risponde ad un target sempre più differenziato ma anche evoluto e sensibile capace di giocare, contaminare gli stili, destrutturare e soprattutto personalizzare e comporre.

Insomma, la luce continua a sorprenderci e ci invita, ogni anno, ad esplorare un po' più in là.

Perenz is pleased to present the new catalogue named **What's new? Color Evolution**. A compendium anticipating the proposals of the new general catalogue and which highlights two lines of research: the color, able to change the sign of the existing and widely appreciated products by opening new emotional dimensions, and the implementation of the families to meet the increasing needs of furniture coordination.

The families, signed Perenz, grow further and found an ever sharper personality through a color sophistication that enhances and gives value to the material: the elegant matt black, the refined brushed pink gold and the warmth of the cinnamon color meet the shininess of aluminium and metal; and glass - in the new variants amber and mirrored - returns in a contemporary way.

Also the pure shapes resurface, such as the circle, the square, the cube, the sphere; the line finds new dynamisms to create completely new environments and atmospheres.

The range - carefully selected together with the sales force - responds to an increasingly differentiated but also evolved and sensitive target able to play, contaminate styles, deconstruct and especially customize and compose.

In short, light continues to surprise us and invites us every year to explore a little further.

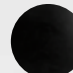

CROSS

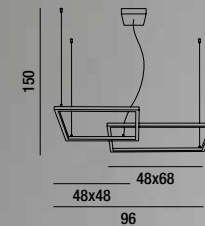

Linea che esplode in tutta la sua purezza geometrica, sezioni multiple e piani sovrapposti dividono lo spazio. Il risultato è una rigorosa illusione prospettica che chiede il tempo per la contemplazione.

A line that bursts in all its geometric purity; multiple sections and overlapping planes divide the space. The result is a rigorous perspective illusion that asks to spend time in contemplation.

Cosa sono le nuvole se non raduni di particelle sospese? La densità del vetro soffiato restituisce la lieve consistenza dei cirri che mutano continuamente nelle forme e nei colori modificando le atmosfere.

Vecchie fabbriche, cantieri dismessi e antichi magazzini; è lì che l'arte si nasconde. Luce che sgorga dal rubinetto, filtra attraverso il metallo, si cala veloce dalla corda.
